

## IRINGA Hard Surface Disinfectant (RTU)

### 1. Description

**IRINGA Hard Surface Disinfectant (RTU)** is an aqueous mixture of non-ionic surfactants, cationic surfactants, sequestrants and builders. It is a "ready to use product" with no dilution necessary.

DO NOT mix with any other cleaning liquid!

### 2. Application

Apply a small amount on to the surface to be cleaned. Using a clean cloth spread over the surface. Apply more product if necessary and spread it over the surface until the whole area is covered.

Wipe off excess liquid and then allow the surface to dry.
